

As we prepare to celebrate our nations Independence, I would like to remind you of a few things to ensure your safety and the safety of our community.

The Woodlands Covenants are designed to protect the quality of life in our Community and one very important restriction is the prohibition of the use of fireworks. Folks, we are experiencing dangerously dry conditions in our County and The Woodlands Fire Department needs your help! Please DO NOT discharge fireworks within The Woodlands Township, potentially causing needless injuries, possible loss of life and property damage. Our Community is great for a reason. It is because of the people who live and work in The Woodlands. It is up to each resident to be responsible and intelligent about the hazards associated with the discharge of fireworks in our neighborhoods. Leave the discharge of fireworks up to the professionally licensed experts and enjoy the approved public displays on this upcoming Holiday.

Yes, The Woodlands Fire Department will respond to complaint calls in order to deter the restricted use of fireworks. However, we need assistance from you to comply and inform others about the restrictions. With your help we can cut down on fire hazards and potential incidents! Please keep your neighbors and our Community in mind and remember, Safety First!

Have a safe Fourth of July and a Happy Holiday.

Alan B. Benson

Fire Chief

The Woodlands Fire Department
